DEFINITIONS

Mental Health and Mental Rehabilitation are facilities that provide non-surgical medical intervention for:

- short term crisis stabilization for mental health and substance abuse; and
- long-term mental health rehabilitation.

This includes facilities that assist individuals to develop or improve task and role-related skills, and social and environmental supports needed to perform as successfully and independently as possible at home, family, school, work, socialization, recreations and other community living roles and environments).

Extended Care: All beds located within a hospital, licensed by the state and utilized for patients requiring either skilled nursing care or the supervision of skilled nursing care on a continuous and extended basis.

Health Institutions are facilities that provide non-surgical medical treatment other than as described above under Mental Health / Mental Rehabilitation.

Home Health Care Services are organizations which provide nursing, physical therapy, housekeeping and related services to patients at their residences.

Convalescent Facilities are free-standing facilities which provide skilled nursing care and treatment for patients requiring continuous health care, but do not provide any hospital services (such as surgery); and 50% or more of their patients are under 65.

Skilled Nursing Facilities are free-standing facilities which provide the same service as a Convalescent Facility, except that more of their patients are over 65.

Personal Care Facilities are free-standing facilities which provide health-related personal care, residential and social care with some routine health care, but not continuous skilled nursing care. Residents are primarily or exclusively over 65. Personal care facilities are not eligible for coverage.

Sanitariums or Health Institutions – not hospitals or mental psychopathic institutions are facilities with regular bed and board accommodations, and with laboratory or medical departments, but not risks with surgical operating room facilities even though designated as sanitariums or health institutions.
